UN DIALOGO APERTO TRA MATERIA ED ESTETICA
AN OPEN DIALOGUE BETWEEN MATERIAL AND AESTHETICS

X-STEEL 316

Focus. *Un nuovo completamento della gamma Newform per l'ambiente bagno diventa innovazione materica al servizio del design.*

Focus. *A new complete range of Newform products for bathroom environments develops into a material innovation at the service of design.*

La nuova gamma di accessori in acciaio inox 316 amplia ufficialmente le potenzialità creative dell'ambiente bagno firmato Newform. All'indiscutibile qualità dell'acciaio si affianca la versatilità delle finiture PVD in versione spazzolata, reminder visivo di un tratto artigianale.

Estensione della collaudata serie X-Steel 316, questo nuovo ventaglio di prodotti è segno di un progetto timeless, eterno, destinato a durare negli anni date le performance qualitative del materiale scelto. All'acciaio si attribuiscono qualità come forte resistenza a corrosioni, igiene, durezza e inossidabilità, con una probabilità pressoché nulla ad arrugginirsi nel tempo. È così che Newform interpreta in chiave contemporanea il prestigio di uno dei materiali a più alta efficienza nel mondo dell'arredo bagno.

Nel trovare il giusto accordo tra estetica ed alte prestazioni, il brand presenta i nuovi accessori X-Steel 316 lasciando un'ulteriore impronta sostenibile tra la gamma di articoli a catalogo: l'acciaio, infatti, è da considerarsi come una "risorsa permanente" sul nostro pianeta, in quanto altamente riciclabile e riutilizzabile più e più volte, evitandone sprechi o dispersioni nell'ambiente.

Scoprire i nuovi accessori X-Steel 316 significa optare per una gamma di complementi d'arredo tradizionali e immancabili nell'ambiente bagno, ma capace di grandi slanci decorativi.

The new range of stainless-steel accessories officially boosts the creative potentialities of the bath environments by Newform. The versatility of PVD brushed finishes joins the indisputable qualities of stainless steel, creating a visual reminder of handcrafted features.

Born as an extension of the well-proven X-Steel 316 series, this new range of products represents a timeless project, designed to last over the years given the qualitative performance of the material chosen. High corrosion resistance, hygiene, durability, as well as a very low probability to rust are the main qualities attributed to stainless steel. Newform therefore presents its modern interpretation of one of the materials with the highest efficiency in the bathroom furnishing.

While looking for the right agreement between aesthetics and high performance, the brand presents the new X-Steel 316 accessories leaving another sustainable mark among the catalogue items: stainless steel must be considered as a "permanent resource" in our planet, since it is highly recyclable and re-usable over and over, avoiding wastes or dispersion in the environment.

Discovering the new X-Steel 316 accessories means opting for a range of traditional and must-have furnishings with a great decorative impulse.

SISTEMA DI QUALITÀ CERTIFICATO CERTIFIED QUALITY SYSTEM

DESIGN MAKES RESPONSIBLE

Lo scopo prioritario di Newform è quello di fornire un prodotto di qualità superiore, progettato minuziosamente e costruito solamente con materiali di prima scelta, una metodologia certificata secondo le norme UNI-EN ISO 9001 per la progettazione e produzione di rubinetteria sanitaria e accessori da bagno. Inoltre, la creazione e l'implementazione di un sistema integrato che permette sistematicamente di migliorare le condizioni lavorative e di ridurre l'impatto ambientale secondo gli standard ISO 45001 ed ISO 14001, è un altro importante passo verso una sempre più consapevole responsabilità sociale d'impresa.

Newform's first priority is to create high quality products, conceived carefully in every single detail and produced only with first quality materials, a method recognised by UNI-EN ISO 9001 standards for design and production of sanitary taps and bathroom accessories. Furthermore, creation and implementation of an integrated system to continuously improve working conditions and reduce environmental impact according to ISO 45001 and ISO 14001 standards is another important step towards Corporate Social Responsibility.
