NOBILI

Being Nobili.

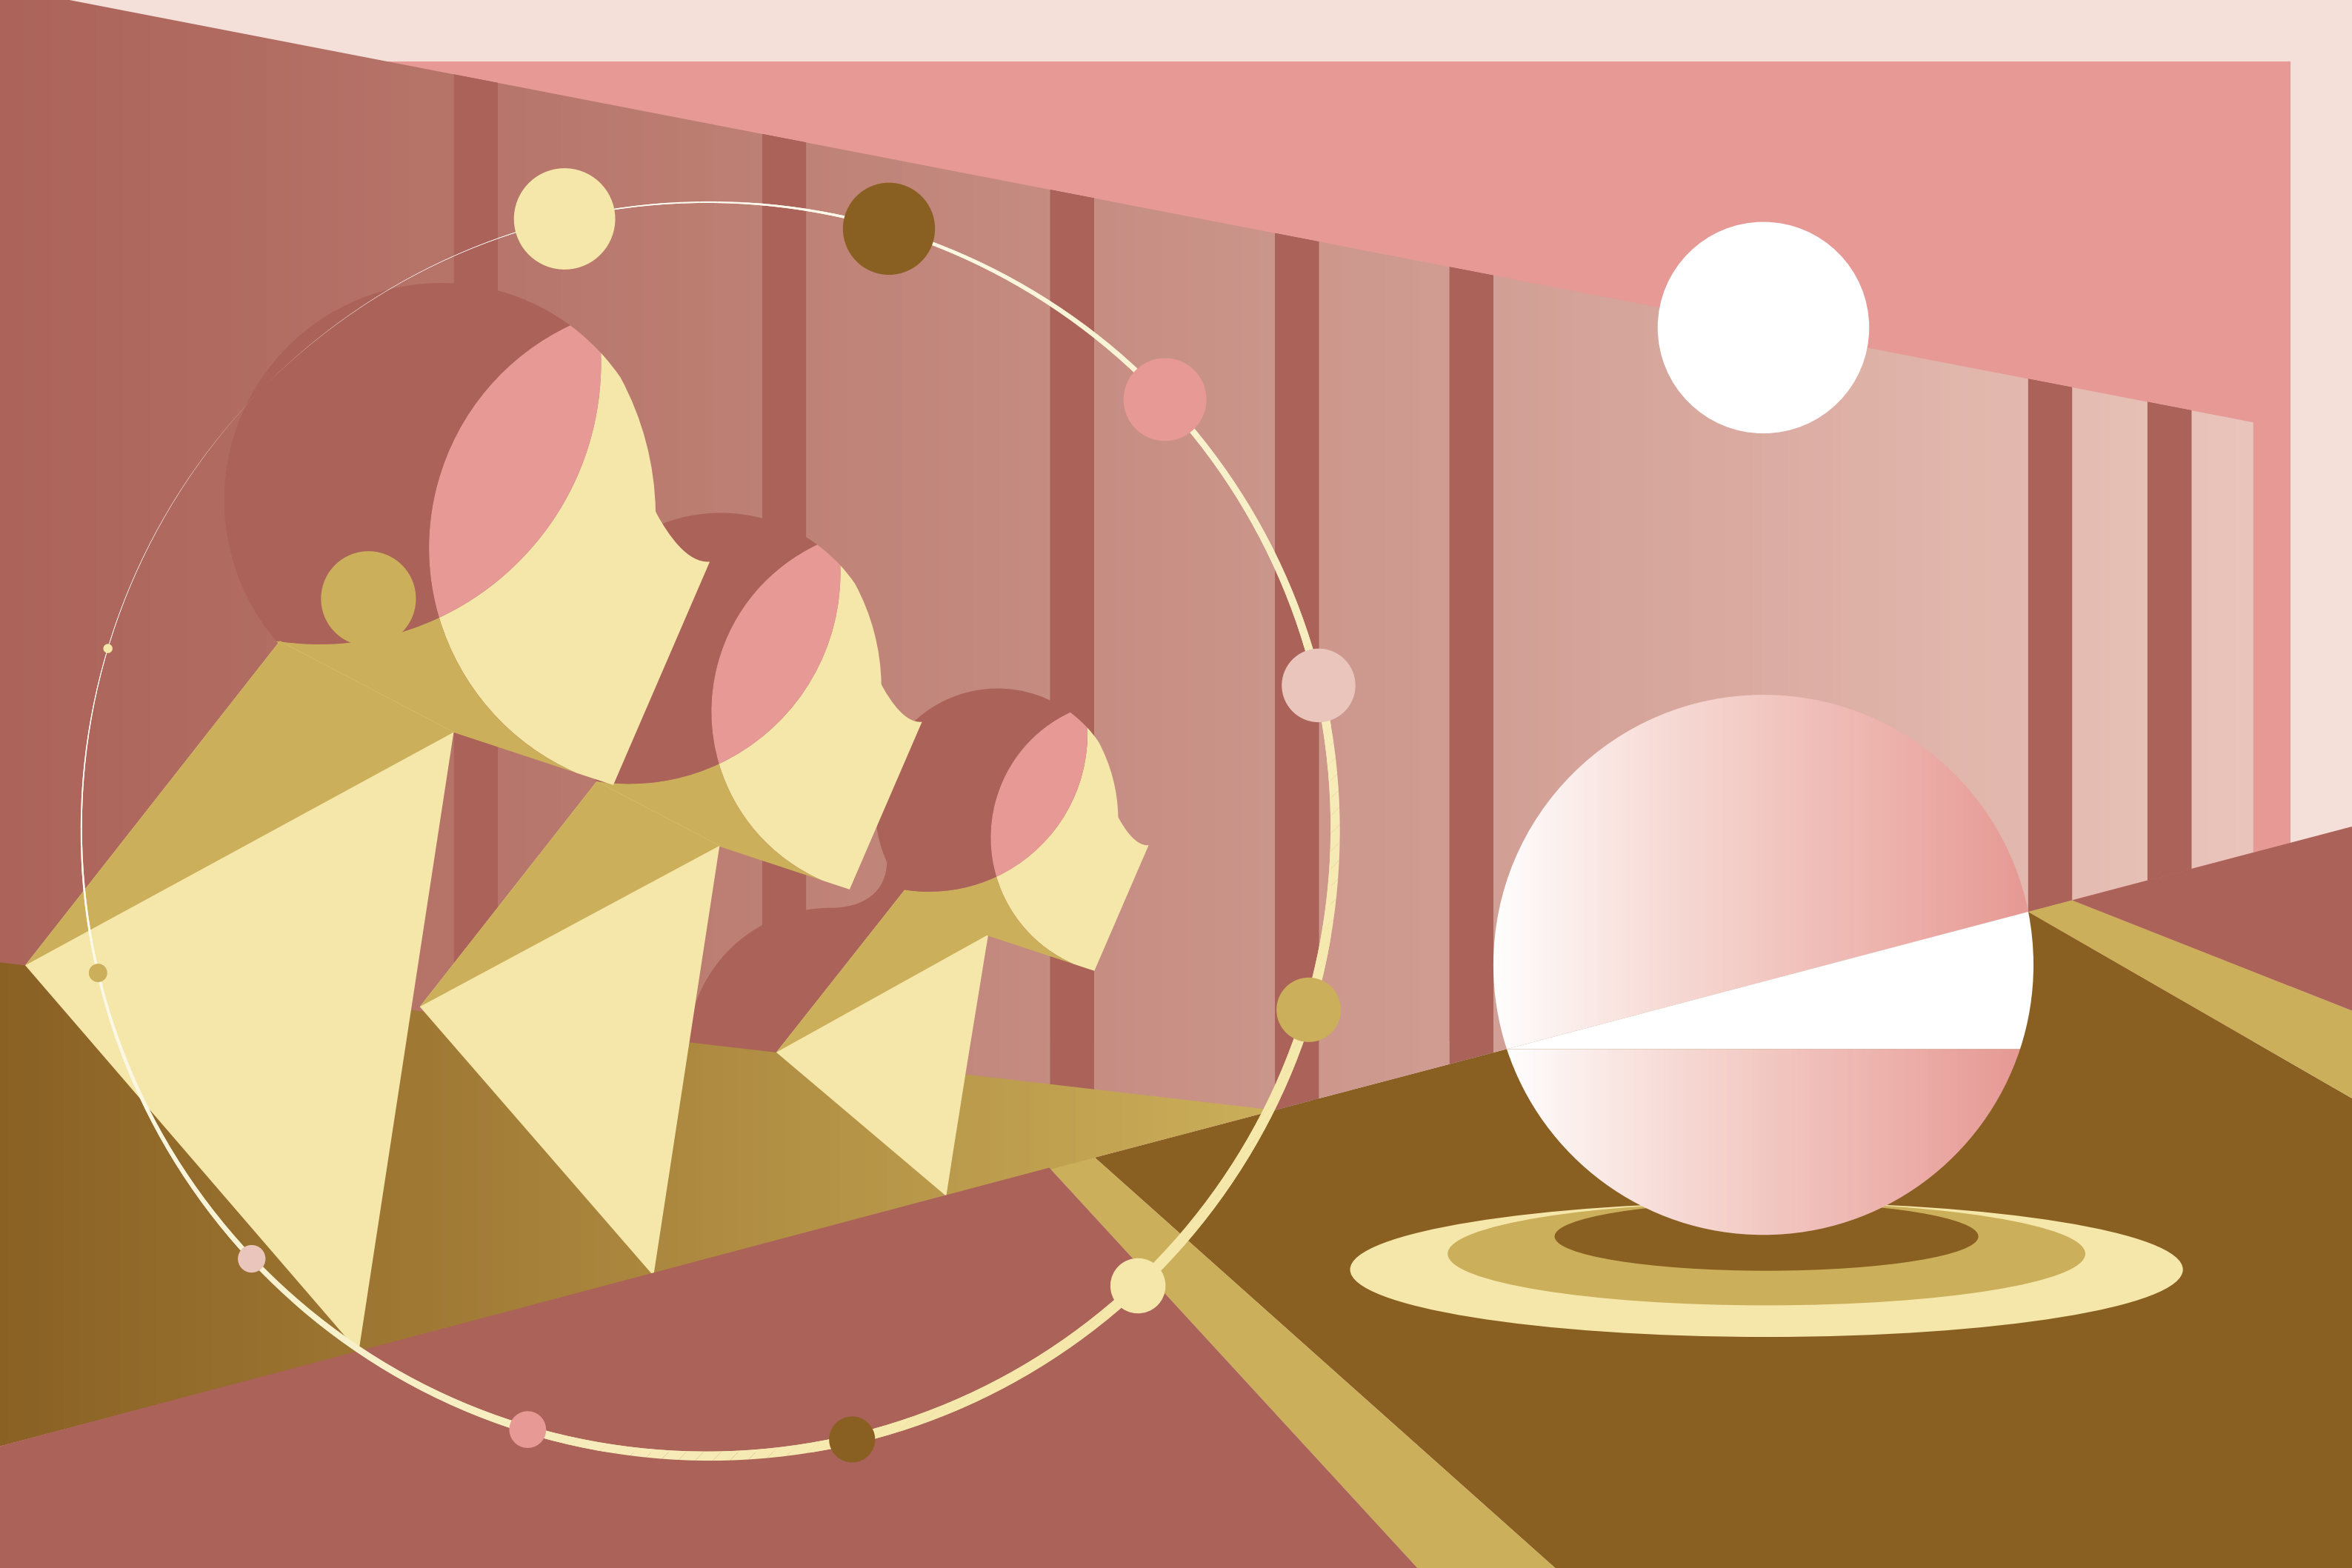

Francesco Poroli

Francesco Poroli's graphic language, made of bright colours and dynamic compositions, creatively interprets the values of style, innovation and sustainability that are Nobili's distinguishing features: the result is a synergy that celebrates the wonder of everyday life and transforms water into a true aesthetic experience.

Il linguaggio grafico di Francesco Poroli, fatto di colori vivaci e composizioni dinamiche, interpreta in chiave creativa i valori di stile, innovazione e sostenibilità che contraddistinguono Nobili: il risultato è una sinergia che celebra la meraviglia del quotidiano e trasforma l'acqua in una vera e propria esperienza estetica.

Our home.

Welcome to our home, the Nobili Institute of Technology: eleven departments that beat like one heart under one roof, expertly guided by Alberto, Pierluigi, Maria Grazia and the entire Nobili family. It is the place where the passion for water, a wonderful and invaluable resource, is transformed into products that are born, developed and perfected totally within our home.

Benvenuti nella nostra casa, il Nobili Institute of Technology: undici reparti che battono come un unico cuore sotto lo stesso tetto, sapientemente guidati da Alberto, Pierluigi, Maria Grazia e l'intera famiglia Nobili. È il luogo dove la passione per l'acqua, risorsa meravigliosa e di valore inestimabile, si trasforma in prodotti che nascono, si sviluppano e si perfezionano totalmente all'interno della nostra casa.

Avant-garde.

Being on the leading edge means every intuition becomes innovation, every innovation a patent and every patent a daily wonder. Nobili cartridges, with a lifetime warranty, are the heart of an advanced system that ensures total reliability. Innovating, for us, happens now, in the NIT departments where technology is born to always be one step ahead.

Avanguardia significa trasformare ogni intuizione in innovazione, ogni innovazione in brevetto e ogni brevetto in meraviglie quotidiane. Le cartucce Nobili, garantite a vita, sono il cuore di un sistema evoluto che assicura affidabilità assoluta. Innovare, per noi, è un verbo al presente: accade ora, nei reparti NIT dove la tecnologia nasce per restare sempre un passo avanti.

Sustainability by design.

Sustainability, for Nobili, is not an extra: it is natively integrated into the body of each tap and in the layout of the plant. We produce everything in-house to reduce transport and waste, we use water and energy recovery systems and make each mixer an environmental ally. It is a radical vision, designed to safeguard the most precious resource that enters our homes every day.

La sostenibilità, per Nobili, non è un'aggiunta: è nativamente integrata nel corpo di ogni rubinetto e nel layout dello stabilimento. Produciamo tutto internamente per ridurre trasporti e sprechi, recuperiamo energia e acqua, rendiamo ogni miscelatore un alleato dell'ambiente. È una visione radicale, pensata per custodire la risorsa più preziosa che, ogni giorno, entra nelle nostre case.

Daily wonders.

Every Nobili tap is a daily wonder: design that pleases the eye, ideas that take shape, creativity that dialogues with ergonomics to bring beauty and comfort to every bathroom and kitchen in the world. The water that flows through our hands, through a Nobili wonder, reminds us that our extraordinary everyday life deserves an exceptional experience.

Ogni rubinetto Nobili è una meraviglia quotidiana: design che appaga lo sguardo, idee che si fanno forma, creatività che dialoga con l'ergonomia per portare bellezza e comfort in ogni bagno e cucina del mondo. L'acqua che scorre tra le mani, attraverso una meraviglia Nobili, ricorda che la straordinaria quotidianità di ogni giorno merita un'esperienza d'eccezione.

Lifetime warranty.

The Nobili Widd® 2020 full immersion cartridge with axial movement revolutionises the structure of traditional mixers by eliminating the side cartridge block and creating an extremely clean and streamlined line. Opening the flow to cold water eliminates carbon dioxide emissions from unintentional boiler start-up.

La cartuccia a immersione totale e movimento assiale Nobili Widd® 2020 rivoluziona la struttura dei miscelatori eliminando il blocco cartuccia laterale e dando vita ad una linea pulita e filante. L'apertura del flusso in acqua fredda azzerà le emissioni di anidride carbonica derivate dall'accensione involontaria della caldaia.

Widd® 2020

Water Immersion Dry Disc axial cartridge, ø 34 mm

Thanks to its innovative design philosophy and the use of cutting-edge materials, the Nobili Widd® 35 immersion cartridge allows reliability levels to be reached that were unimaginable until now: torsional strength 180 Kg, resistance to pressure over 70 Bar. A jewel conceived, designed and manufactured in the NIT.

Grazie all'innovativa filosofia progettuale e all'utilizzo di materiali all'avanguardia, la cartuccia ad immersione Nobili Widd® 35 permette livelli di affidabilità inimmaginabili prima d'ora: rottura in torsione 180 Kg, resistenza alta pressione oltre 70 Bar. Un gioiello tecnologico ideato, progettato e realizzato all'interno del NIT.

Widd® 35

Water Immersion Dry Disc cartridge, ø 35 mm

The water reaches the top of the mixer body flowing around the profile of the cartridge, drastically reducing mechanical wear: there are no internal limescale deposits and no grease is washed away. The lubrication of the ceramic plates is thus unaltered, allowing unparalleled smoothness of lever movements.

L'acqua raggiunge la cima del corpo miscelatore scorrendo esternamente al profilo della cartuccia, diminuendone l'usura: non c'è alcun deposito di calcare interno e non vengono asportati i grassi. La lubrificazione delle piastrine ceramiche è così inalterata consentendo una morbidezza dei movimenti della leva senza uguali.

Widd® 28

Water Immersion Dry Disc cartridge, ø 28 mm

Refined simplicity.

Refined simplicity, new proportions capable of overturning the most traditional logic. Sole represents the perfect synthesis between technology and style, a combination capable of giving life to a unique mixer, which never gets boring thanks to its extreme essentiality: complex to build, simple to live.

Semplicità ricercata, inedite proporzioni in grado di stravolgere le logiche più tradizionali. Sole rappresenta la perfetta sintesi tra tecnologia e stile, un connubio in grado di dare vita ad un miscelatore unico, che non annoia mai grazie alla sua estrema essenzialità: complesso da costruire, semplice da vivere.

Pure avant-garde: the excellence of our research and development laboratories has produced the full-immersion Nobili Widd® 34-millimetre cartridge with axial movement, which can revolutionise the structure of traditional mixers by eliminating the side cartridge block and giving life to an extremely clear, streamlined profile.

Pura avanguardia: dall'eccellenza dei nostri laboratori di ricerca e sviluppo nasce la cartuccia a immersione totale e movimento assiale Nobili Widd® con diametro da 34 millimetri, in grado di rivoluzionare la struttura dei miscelatori tradizionali eliminando il blocco cartuccia laterale e dando vita ad una linea estremamente pulita e filante.

The universal built-in body for wall-mounted single-lever axial washbasin is compatible with mixers equipped with the revolutionary Nobili Widd® 2020 immersion cartridge: a technological jewel that defines an epochal change in the design of designer taps, allowing entry, the regulation of flow rate and temperature and the water outlet on the same axis, giving life to mixers characterized by essential lines and extreme stylistic minimalism.

Il corpo incasso universale per lavabo a parete monocomando assiale è compatibile con i miscelatori equipaggiati con la rivoluzionaria cartuccia a immersione Nobili Widd® 2020: un gioiello tecnologico che definisce un cambiamento epocale nella progettazione della rubinetteria di design, consentendo l'entrata, la regolazione di portata e temperatura e l'uscita dell'acqua sullo stesso asse, dando vita a miscelatori contraddistinti da linee essenziali e da un estremo minimalismo stilistico.

Pure minimalism.

Pure minimalism, pure technology, pure freedom. Velis eliminates the superfluous and returns to the essential, through a modern and timeless line: the Nobili Widd® full immersion cartridge (in its most recent version with axial mixing) allows an unprecedented and extraordinary balance between style and progress.

Puro minimalismo, pura tecnologia, pura libertà. Velis elimina il superfluo e torna all'essenziale, attraverso una linea moderna e senza tempo: la cartuccia a immersione totale Nobili Widd® nella sua versione più recente con miscelazione assiale permette un inedito e straordinario equilibrio tra stile e avanguardia.

An absolutely formal language expresses the sinuosity of the Velis project and is reflected in the lightest inner order. Always providing cold water to start with eliminates CO₂ emissions: combined with the retractable aerator with flow limited to 5 litres per minute, it represents the highest expression of technological research in the entire sector.

Un linguaggio formale assoluto esprime la sinuosità del progetto Velis e si riflette nel più leggero ordine interiore. L'apertura del flusso in acqua fredda azzerava le emissioni di anidride carbonica: in abbinamento all'aeratore con portata ridotta a 5 litri al minuto, rappresenta la massima espressione della ricerca tecnologica del settore.

The high-performance, very versatile Multibox flush fit body allows for the creation of a 2-way system suitable for both shower and bath environments. The deviator makes it possible to switch between the hand shower and a second outlet, which can be connected to a fixed shower head or, in the case of a bathtub installation, to a wall-mounted spout or a tub column with a water outlet.

Il corpo incasso Multibox, ultra performante e straordinariamente versatile, permette la realizzazione di un impianto a 2 vie, sia per l'ambiente doccia che vasca: tramite il deviatore è infatti possibile alternare alla doccetta una seconda uscita, da collegare ad un soffione doccia oppure, in caso di soluzione vasca, a una bocca a parete o a una colonna vasca dotata di erogazione.

Jese Medina-Suarez, 2025

Cromo, Inox, Grafite, Miele, Tabacco

Feel the wonder of harmony.

There are places in the world that can make us feel good. Spaces that show their soul through a gentle harmony of environments, furnishings and objects. A delicate balance between diversity and discretion, where art can be bold without appearing intrusive, creating a balance that is perceived and, above all, experienced.

Ci sono luoghi, nel mondo, in grado di farci stare bene. Spazi che mostrano la loro anima attraverso una gentile armonia di ambienti, arredi e oggetti. Un equilibrio delicato tra diversità e discrezione, dove l'arte sa essere audace senza apparire invadente, dando vita a un equilibrio che si percepisce e, soprattutto, si vive.

The alternation of decorated and totally smooth surfaces creates an elegant overall balance, suitable for withstanding the passage of time. The knob, characterised by the iconic intersection element, a meeting point between functionality and style, creates a sinuous movement by sliding on the reducer: a highly refined detail, a true distinctive element of the collection.

L'alternanza di superfici decorate e totalmente lisce crea un equilibrio d'insieme elegante e raffinato, adatto a resistere al trascorrere del tempo. La manopola, caratterizzata dall'iconico elemento di intersezione, punto di incontro tra funzionalità e stile, crea un movimento sinuoso scivolando sulla ghiera: un dettaglio altamente ricercato, vero elemento distintivo della collezione.

The exclusive range of Respiro accessories allows you to extend the sensorial touch of taps (characterised by the textured surface and the iconic intersection element, a meeting point between functionality and style) even outside the washbasin top: different models (towel holder, hanger, roll holder with phone holder cover) ideal for completing the bathroom furnishings by combining elegance and refinement in a balanced mix of modernity and versatility.

L'esclusiva gamma di accessori Respiro permette di estendere il tocco sensoriale della rubinetteria (caratterizzata dalla superficie texturizzata e dall'iconico elemento di intersezione, punto di incontro tra funzionalità e stile) anche al di fuori del piano lavabo: differenti modelli (portasalviette, appendino, porta rotolo con copertura porta telefono) ideali per completare l'arredo della sala da bagno coniugano eleganza e raffinatezza in un bilanciato mix di contemporaneità e versatilità.

Live

Centro Stile, 2010

Cromo, Inox, Grafite, Mora, Neve, Miele, Tabacco

Live your passion.

Balanced and elegant style, free from stylistic excesses. Live's streamlined design goes beyond fashions, reflecting the true soul of timeless design. The sustainability of the Nobili Widd® cartridge shows how closely our brand is connected with technological efficiency and environmental protection.

Stile equilibrato ed elegante, libero da eccessi stilistici. Il design essenziale di Live supera le mode e riflette l'anima del design intramontabile. La sostenibilità della cartuccia Nobili Widd® testimonia lo stretto legame del nostro brand tra efficienza tecnologica e rispetto ambientale.

Live is built around the Nobili Widd® immersion cartridge: the water reaches the spout by flowing outside its profile, reducing mechanical wear. Conceived, designed and manufactured in the NIT (Nobili Institute of Technology), it guarantees maximum comfort and unrivalled reliability.

Live nasce attorno alla cartuccia a immersione Nobili Widd®: l'acqua raggiunge la bocca scorrendo esternamente al suo profilo, diminuendo l'usura meccanica. Ideata, progettata e realizzata all'interno del NIT (Nobili Institute of Technology), garantisce il massimo comfort e un'impareggiabile affidabilità.

Universal, intelligent and versatile: the 2-way Wellbox flush-fit thermostatic mixer is synonymous with cutting-edge technology. The safety cut-out prevents the risk of burns in the event of cold water suddenly running out. The mixer can be installed on plasterboard, either vertically or horizontally, and can be connected to the water pipes on the left side or on the right.

Universale, intelligente e versatile: il termostatico incasso Wellbox a 2 vie è sinonimo di avanguardia tecnologica. Il blocco di sicurezza interrompe l'erogazione in caso di improvvisa mancanza di acqua fredda, può essere installato su cartongesso sia in verticale che orizzontale, ed è predisposto per il collegamento delle tubature sul lato sinistro o destro.

Centro Stile, 2018

Cromo, Mora

Individual draft.

Sophisticated simplicity and understated style strike the perfect balance, blending in seamlessly with the interior of any architectural project. The control knob embraces the linear features of the mixing spout, in pursuit of the highest levels of operating comfort and the utmost environmental sustainability.

Semplicità raffinata e stile essenziale perfettamente bilanciati, in grado di adattarsi con armonia all'interno di tutti i progetti architettonici. La manopola di comando riprende i tratti lineari della bocca di miscelazione, alla ricerca del più elevato comfort di utilizzo e della massima sostenibilità ambientale.

Uno holds a highly technological soul: the extraordinary Nobili Widd® immersion cartridge with 28 millimetre diameter, designed and built in our research and development laboratories. It guarantees absolute functional reliability and maximum environmental sustainability.

Uno custodisce un'anima altamente tecnologica: la straordinaria cartuccia a immersione totale Nobili Widd® dal diametro di appena 28 millimetri, progettata e realizzata all'interno dei nostri laboratori, in grado di garantire l'assoluta affidabilità funzionale e la massima sostenibilità ambientale.

Techbox, the universal flush-fit body dedicated to the creation of a 2-way single control system fitted with ceramic diverter, is surprising owing to its compact size and superior technology: Nobili Widd® cartridge guaranteed for life, protective caps for internal mechanical parts, integrated bubble level, slots for possible installation on plasterboard walls.

Techbox, il corpo incasso universale dedicato alla creazione di un impianto a due vie monocomando dotato di deviatore ceramico, sorprende per le sue ridotte dimensioni e per la sua elevata tecnologia: cartuccia Nobili Widd® garantita a vita, tappi di protezione delle parti meccaniche interne, bolla integrata, asole per l'eventuale montaggio su pareti in cartongesso.

Yoyo

Centro Stile, 2021

Cromo, Mora

Playful elegance.

Essential harmony and contemporary simplicity: Yoyo expresses character and personality through a soft and sinuous line, made possible by the Nobili Widd® immersion cartridge (with a diameter of just 28 millimetres) and emphasised by the concealed aerator, which defines its features and enhances its elegance.

Armonia essenziale e semplicità contemporanea: Yoyo esprime carattere e personalità attraverso una linea morbida e sinuosa, resa possibile dalla cartuccia a immersione Nobili Widd® dal diametro di appena 28 millimetri ed enfatizzata dall'aeratore a scomparsa che ne definisce i tratti e accentua l'eleganza.

Energy saving thanks to the cold water flow upon turning on (which avoids accidental boiler activation and the emission of combustion fumes into the environment) and water saving thanks to the Neoperl® Cascade® concealed aerator, with flow rate limited to 5 litres per minute. Here is the fastest way to contribute to the protection of the Planet.

Risparmio energetico grazie all'apertura in acqua fredda (che evita l'accensione involontaria della caldaia e l'immissione di fumi di combustione nell'ambiente) e risparmio idrico, in virtù dell'aeratore a scomparsa Neoperl® Cascade® con portata limitata a 5 litri al minuto: il modo più veloce per contribuire alla salvaguardia del Pianeta.

Allbox, the universal flush-fit body for wall-mounted single-lever washbasin, offers ultimate levels of freedom in terms of styling and functionality: it is compatible with the majority of bathroom collections, leaving the end user to choose their favourite external part from among a wide range of offerings, which differ in design, finish and outlet spout length.

Allbox, il corpo incasso universale per lavabo a parete monocomando, offre la massima libertà in termini di estetica e funzionalità: è compatibile con la maggior parte delle collezioni bagno, lasciando all'utente finale la possibilità di scegliere la parte esterna preferita tra un'ampia gamma di proposte, differenti per design, finitura e lunghezza della bocca di erogazione.

Design as a solution.

Clean lines lightened by sinuous profiles, a sophisticated refinement that brings the male and the female worlds together with harmony. Essential, concrete, pragmatic, technological innovation dressed up in elegantly sophisticated attire, as a pure expression of our brand's avant-garde production.

Linee rigorose alleggerite da profili sinuosi: una ricercatezza sofisticata che connette armoniosamente il mondo maschile e quello femminile. Essenziale, concreta, pragmatica, l'innovazione tecnologica si veste di un abito sofisticato ed elegante, pura espressione dell'avanguardia produttiva del nostro marchio.

A youthful and trendy architectural style, in which every element matches and is in the right place, arousing a deep feeling of elegance and tranquillity. A distinctive sign and stylistic detail, the sharp edge at the front lightens the overall look, for a cleaner, more streamlined mixer tap.

Un'architettura giovane e di tendenza, dove ogni elemento è coordinato e al posto giusto, per regalare una profonda sensazione di eleganza e tranquillità. Segno distintivo e dettaglio stilistico coerente, il taglio netto della parte frontale alleggerisce l'insieme, rendendo il miscelatore leggero e filante.

Simple and practical: the 2-way Easybox universal flush fit body is equipped with a 35 millimetre diameter Nobili Widd® cartridge, guaranteed for life. It is suitable for masonry walls; because it has built-in slots, it can also be used on plasterboard walls. It is compatible with the EN 1717-compliant anti-back flow device, available as an option.

Semplice e pratico: il corpo incasso universale Easybox 2 vie è dotato di cartuccia Nobili Widd® con diametro da 35 millimetri, garantita a vita. È adatto sia per pareti in muratura che, grazie alle asole incorporate, per pareti in cartongesso. È compatibile con il dispositivo antireflusso per la normativa EN 1717, disponibile come optional.

Style parisien.

Majestic bearing, solemn style. Dynamism and strength, a continuous alternation of soft curves and sharp edges. Classic trend, refined elegance: Sofi reinvents history of art and proposes a unique and fabulous meeting within the bathroom, blending distant influences with modern inspirations.

Portamento maestoso, stile solenne. Dinamismo e forza, un continuo alternarsi di curve morbide e spigoli vivi. Andamento classico, eleganza raffinata: Sofi reinventa la storia dell'arte e propone all'interno della sala da bagno un unico e favoloso incontro tra influenze lontane e ispirazioni moderne.

A pleasant romantic feeling, enhanced by the curves of the body and the undulating lines of the spout. The sinuous profiles of Sofi enhance the charm of an exclusive and refined environment, elegantly mixing highly advanced production with stylistic tradition.

Una piacevole sensazione romantica, esaltata dalle curve del corpo e dalle linee ondegianti della bocca di erogazione. I profili sinuosi di Sofi valorizzano il fascino di un ambiente esclusivo e raffinato, mescolando con eleganza avanguardia produttiva e tradizione stilistica.

Lira

Piet Billekens, 2018

Cromo, Grafite, Mora

The shape of water.

With a simple contour that is noble in conception, the shape of water starts its journey from a line - an essential and minimalist trait that opens to a polyhedric world of interpretation. Lira overcomes the concept of fashion, crystallising timelessness in its style - character is in the eye of the beholder.

Elementare nella sagoma ma nobile nella sua concezione, la forma dell'acqua si racconta iniziando il suo percorso da una linea, che nella sua essenzialità apre ad un mondo interpretativo poliedrico. Lira supera il concetto di moda, cristallizzando l'atemporalità del suo stile: il carattere è negli occhi di chi la guarda.

The ceramic disc screw valve allows the most gentle manoeuvrability in managing the flow and temperature of the water. Made with first class materials in our production departments in the NIT (Nobili Institute of Technology), it guarantees maximum reliability over time.

Il vitone ceramico permette la più dolce manovrabilità nella gestione della portata e della temperatura dell'acqua. Realizzato con materiali di prim'ordine all'interno dei reparti produttivi del NIT (Nobili Institute of Technology), garantisce la massima affidabilità nel corso del tempo.

Grid for floor

An innovative solution for the shower setting, with drain channels to satisfy the needs of the modern bathroom: two syphon versions (85 and 105 millimeters), six styles (five grids with different patterns plus one tileable), five available sizes (70, 80, 90, 100, 120 centimeters) in addition to the option of a modular installation by creating a continuous line of single units.

Soluzione innovativa per l'ambiente doccia, le canaline di scarico assecondano le esigenze del bagno moderno: due varianti di sifone (85 e 105 millimetri), sei stili (cinque griglie dal diverso design più una piastrellabile), cinque misure disponibili (70, 80, 90, 100, 120 centimetri) oltre alla possibilità di realizzare un'installazione modulare creando una linea continua di singole unità.

Carlos Primero

Piet Billekens, 2010

Cromo, Miele

Stylistic evolution.

Carlos Primero reflects a generational transition from retro styles to innovative solutions. A complete range of products for refined, distinguished atmospheres - such as mixers for washbasins, bidets, baths and showers, as well as a rich offering of matching accessories - catches the eye with its sensual elegance.

Carlos Primero esprime il passaggio generazionale tra ricordi di stile e nuovi percorsi. L'eleganza è vestita da abiti sensuali e cattura gli sguardi attraverso una gamma completa, adatta ad ambienti raffinati e signorili: lavabo, bidet, vasca oppure doccia, oltre ad una ricca proposta di accessori coordinati.

The water flow is regulated by a valve headwork with friction rod that increases the compression between the ceramic discs as the water pressure increases. Adopting this technology means that the water itself can be used as a lubricant, thus preventing the valve headwork from hardening over time.

La regolazione del flusso è garantita dal vitone con asta frizionata, in grado di aumentare la compressione tra i dischi ceramici con l'aumento della pressione dell'acqua: questa tecnologia permette di utilizzare come lubrificante l'acqua stessa, evitando il problema dell'indurimento del vitone nel tempo.

The universal flush-fit body for wall-mounted 3-hole washbasin set simplifies and speeds up system installation time frames: it can be installed in advance, leaving the end user free to choose the external part from among a wide range of offerings, which differ in design and finish.

Il corpo incasso universale per batteria lavabo 3 fori a parete semplifica e velocizza i tempi di realizzazione dell'impianto: può essere installato in anticipo lasciando all'utente finale la scelta della parte esterna fra un'ampia gamma di proposte, differenti per design e finitura.

Brand manifesto.

We are led by wonder. The ability to feel emotions for what surprises and inspires us. For instance, a gush of water flowing like a gift from a rock. That's the wonder leading us. At Nobili, we have been replicating it for three generations: in thousands forms, in millions of homes, all over the world.

La meraviglia che ci guida. La capacità di provare emozioni per ciò che ci sorprende e che ci ispira. Per esempio, uno zampillo d'acqua che sgorga come un dono dalla roccia. È questa meraviglia che ci guida. E ciò che facciamo in Nobili, da tre generazioni, è replicarla: in mille forme, in milioni di case, in tutto il mondo.

We invest resources in the continuous improvement of the product and of processing methods. The catalogue may contain articles subject to modifications. Due to the printing technique, the colours shown above may vary from the true colour of the finish. Before submitting an order, please consult our sales network / Investiamo risorse nel miglioramento continuo del prodotto e delle metodologie di lavorazione. Il catalogo può contenere articoli soggetti a modifiche. A seguito della stampa, la presentazione delle finiture potrebbe non corrispondere pienamente alla realtà. Prima della stesura dell'ordine, consigliamo di consultare la nostra rete vendita.

Sustainable wonders: we define it as «sustainability by design», a virtuous circle in which the production approach cannot be separated from the environmental approach. This is why we have joined Climate Partner, making a concrete contribution to climate improvement projects / Meraviglie sostenibili: in Nobili lo definiamo «sustainability by design», un circolo virtuoso in cui non è possibile scindere l'approccio produttivo dall'approccio ambientale. Per questo abbiamo aderito a Climate Partner contribuendo in modo concreto a progetti di miglioramento climatico.
